A taste of Japan
Giacomo Becchi  
Italy

When I was finishing my bachelor’s degree, I decided to plan an international experience focused on improving my Japanese skills. I decided to opt for two main reasons: the first one was its Intensive Japanese Language track (IJL) and the second one was the possibility to join, along with the Japanese courses, a high number of international relations courses. Thanks to that, I had both the opportunity to strengthen my language skills through a complete and thorough Japanese program and to take part in interesting discussions and lectures on modern international relations issues. Furthermore, the campus allowed me to meet people from all over the world and to meet new friends. Living in Osaka, the “Campus Life” led me to join one of the university clubs, and it was such an amazing experience to understand the real life of a Japanese university student. Living in Kyotanbe for six months gave me a wide and true taste of Japan. Its lively city life offers everything a student could ask for.

Activities that sparked my interest
Eliska Sikulova

An unforgettable part about my SKP experience must be the extracurricular activities. SKP offered a wide range of different activities that students could participate in. Whether it was related to music, drawing, manga, Chinese, sports or dance, everyone could find something that sparked their interest. I was not sure whether I would manage with my poor Japanese skills at first. However, it turned out that when it comes to things you enjoy doing you do not really need a language to communicate. We could not say much to one another, but we could definitely play some great music together. The sport brought us much closer with fewer words. As the time went on, I found myself being able to communicate with my Japanese circle friends much better. Another important aspect of my journey was a dormitory experience. I created deep bonds with the people there and keep on being close to them. I wish my semester in Japan was longer and that I could keep on enjoying the wonderful atmosphere, food and people that made my stay there unforgettable.

Chances to interact with people
Cheng Da Kok  
Singapore

A plethora of academic courses taught in English for students to choose from, and thus I could easily find courses which I was interested in from the OSE track. Classes generally have both foreign and Japanese students attending so there is plenty of chances to interact with people from different backgrounds. There are many opportunities to discuss and work together on various projects. These experiences were one of the key takeaways of the program. While this required some of us to leave our comfort zones, it was an important step forward. The people you meet and work with might just become your lifelong friends. Apart from just academics, RU also allows students to have an opportunity to experience traditional Japanese culture such as going to a tea ceremony, making rice crackers, and participating in Japanese traditional arts. I enjoyed my time at RU and would encourage others to consider SKP.

Student Life

Moving to a new country to commence your studies can be both an exciting and challenging experience. To assist you as much as possible with settling into your new life at RU, we provide you with a range of services and support available throughout your studies.

Housing

We manage three International House dormitories in Kyoto and one for BT students in Osaka. They are equipped with everything a college student would need: fully furnished rooms, live-in Japanese managers and resident mentors, lounges, kitchens, and free internet access. All locations are within easy access of RU campuses by bicycle and public transportation.

*Please note that there are a limited number of rooms in each housing. Therefore, we are not always able to guarantee a place in our accommodations.

SKP Buddies

Settling into life in a new country and a new university can be tough, but SKP Buddies are here to ease the transition as you get used to your new home. During the hectic first few weeks, buddies will help with matters such as residency registration, opening bank accounts, and getting acquainted with Japan and RU. The buddies continue building friendships through Halloween parties, booths at the yearly student festival, and end-of-year parties.

Living expenses will vary depending on each student’s individual lifestyle, but here is a list of estimated expenses. On-campus cafeterias provide a wide range of affordable meal options, and numerous grocery stores and markets in the local area make cooking for yourself easy.
