

## About the Use of Imported Vaccines

Ritsumeikan Medical Service Center and Clinic  
[Kinugasa Campus] 56-1, Toji-in Kitamachi, Kita-ku, Kyoto  
☎ 075-465-8232, Fax 075-466-3422  
[Biwako-Kusatsu Campus] 1-1-1, Noji Higashi, Kusatsu  
☎ 077-561-2635, Fax 077-561-2636  
[Osaka Ibaraki Campus] 2-150, Iwakura-cho, Ibaraki-shi, Osaka  
☎ 072-665-2110, Fax 072-665-2119

Ritsumeikan University may recommend the following imported vaccines to ensure safety at the travel destination or to comply with the local laws. Although we previously recommended having vaccinations at travel clinics **off the campus** (in Osaka, etc.), in consideration of students' convenience, the university clinic has begun providing the following imported vaccines from the second semester of 2017.

- |                            |           |                            |
|----------------------------|-----------|----------------------------|
| 1. Rabies                  | Verorab   | Sanofi Pasteur             |
| 2. Typhoid                 | Typhim Vi | Sanofi Pasteur             |
| 3. Tdap vaccine for adults | Boostrix  | GlaxoSmithKline K.K. (GSK) |

\* For details of diseases and vaccines, see the respective safety measures and explanations provided separately.

\* Although imported vaccines are not approved in Japan, they are used in many countries and have established safety and efficacy.

Side effects and possible complications to unapproved drugs in Japan are out of scope of the Relief System for Injury to Health with Vaccination and the Relief System for Adverse Drug Reactions. Should side effects from imported vaccines result in a permanent disorder or death, it may be subject to the relief system for injury to health provided by the import agency.

For details, see the Monzen Corporation (<http://www.monzen.co.jp/>) website.
