

The 68th

AJI Frontier Seminar

June 11th, 2024,
Tuesday

13:00-14:00

Presentation:

Dr. **WIDARAHESTY Yusy**

Senior Researcher, Ritsumeikan
Asia-Japan Research Organization,
Ritsumeikan University

Gatekeepers in Labor Migration to Japan: Preliminary Studies on Southeast Asian Cases

Facing a significant labor shortage exacerbated by demographic changes, Japan relies on migrant labor from Indonesia, Vietnam, and the Philippines, the major sources of labor migration to the country. This presentation will examine the mechanisms through which state agencies and intermediaries from these countries manage labor migration to Japan. It will investigate the roles these entities play in controlling the migration process at various stages.
