

Meeting with National Archives of Hungary

On Friday, May 9, 2025, the Ritsumeikan University Center for East Asian Peace and Cooperation Studies welcomed a delegation of four members from the National Archives of Hungary, led by its Director, Dr. SZABÓ Csaba, for an official meeting.

The East Asia Center of the National Archives of Hungary holds a vast collection of primary source materials concerning Japan and the Korean Peninsula during the wartime and Cold War periods. To promote the multifaceted and humanitarian use of these materials, the Center has been working to build networks with Japanese universities and research institutions.

During this visit, our center was highly regarded for its extensive research network and its proven record in leading major research projects. As a result, the Hungarian delegation proposed the possibility of future research collaboration.

Our Center confirmed the potential for future academic exchanges with the East Asia Center of the National Archives of Hungary and agreed to work toward establishing a formal research partnership.

The Ritsumeikan University Center for East Asian Peace and Cooperation Studies actively promotes academic exchange across linguistic and disciplinary boundaries through collaboration with various research organizations.
