WORKSHOP

ASIA-JAPAN RESEARCH INSTITUTE RITSUMEIKAN UNIVERSITY

Cultural Research Insights Using Large Language Models

2025 12/10

Osaka Ibaraki Campus
10:50 – 12:20
Room AS362

Prof. Dr. Anna Kruspe
Munich University of Applied Sciences

Biography: Prof. Anna Kruspe received her diploma and Ph.D. degrees in media technology from Technische Universität Ilemnau, Germany, in 2011 and 2017, respectively. She is a machine-learning researcher at the Munich University of Applied Sciences and the German Aerospace Center. Previously, she was a member of the Fraunhofer Institute for Digital Media Technology, Ilmenau, Germany, where her work focused on the application of speech recognition technologies to singing (e.g., for language identification, keyword spotting, or lyrics-based search), as well as the analysis of world music. She conducted research at Johns Hopkins University in Baltimore, Maryland, and at the National Institute of Advanced Industrial Science and Technology in Tsukuba, Japan. Her current work deals with the development of machine-learning technologies for the analysis of social media data in the context of disaster management, biases in large language models, and AI models for text and audio.

Join the Workshop to discuss research ideas and connect with colleagues and researchers interested in large language models for research and state-of-the-art text analysis.
