

Workshop “A New Horizon for Japan–Korea Cooperation: Practical Approaches to Economic Security and Industrial Co-Creation” was held

On Monday, December 8, 2025, the Ritsumeikan Center for East Asian Peace and Cooperation held a workshop titled “*A New Horizon for Japan–Korea Cooperation: Practical Approaches to Economic Security and Industrial Co-Creation.*”

For this workshop, the Center invited Professor Tomonobu Chishima, a renowned expert on Japan–Korea economic relations and industrial policy. Professor Chishima delivered a lecture focusing on the realities and proposals concerning economic cooperation between Japan and South Korea in the semiconductor sector, followed by an in-depth discussion.

Drawing on his many years of hands-on experience in the semiconductor field across both countries, Dr. Chishima shared practical on-the-ground perspectives and concerns regarding Japan–Korea cooperation. By providing such an opportunity, the workshop enabled a realistic and innovative exchange of views that is rarely seen within academia alone.

The Ritsumeikan Center for East Asian Peace and Cooperation actively promotes academic exchange with various research organizations, transcending language and disciplinary boundaries.

●Details
