College of Global Liberal Arts
—AY2022 Cohort B Students —

Ritsumeikan University

The Ritsumeikan Charter

Ritsumeikan traces its roots to Prince Saionji's private academy of the same name, established in 1869. It was officially founded in 1900 by his protégé, Kojuro Nakagawa, as the Kyoto Hosei Gakko (Kyoto School of Law and Politics), later to take on the name "Ritsumeikan." The name is derived from a passage in the Jinxin chapter of the Discourses of Mencius, and means "a place to establish one's destiny through cultivating one's mind."

"Ritsumeikan's founding ideals are "freedom and innovation" and reflecting upon its wartime experience, it committed itself to a core educational philosophy of "peace and democracy" after World War II.

Ritsumeikan has faced the challenges of the times by pursuing an independent path to rise above adversity and has become the comprehensive private educational institution that it is today through extensive cooperation and support from both within and outside Japan.

Ritsumeikan, as a Japanese institution located in the Asia Pacific region, is committed to sincerely reflecting upon history and to building an institution where many cultures coexist in the spirit of international mutual understanding.

Ritsumeikan will build relationships of trust, through research and education, as well as sports and cultural activities, and establish its roots in the local community, to create an academic institution open to international society.

Ritsumeikan will strive to strengthen links with society and promote its institutional development by fully utilizing the characteristics of a private academic institution, the participation of its faculty, staff and students, and the support of alumni and parents, while respecting the principles of autonomy, democracy, transparency, non-violence and justice.

Ritsumeikan will pursue the creation of universal values based on academic freedom and search for solutions to the pressing issues facing humankind, with its educational endeavors based on its founding spirit and educational ideals, bearing in mind "to believe in the future, to live for the future."

Ritsumeikan will foster learning and the development of individual talents in order to nurture just and ethical global citizens.

Ritsumeikan, as an institute of education and research, pledges to promote peace, democracy and sustainable development in Japan and throughout the world, in keeping with the spirit of this Charter.

The Ritsumeikan University Undergraduate Educational Mission and Vision

Ritsumeikan University seeks to promote both rigorous scholarship and individual insights while nurturing just and ethical global citizens. Based upon the university's founding ideals of Freedom and Innovation and its core educational philosophy of Peace and Democracy, this educational mission furthers our core commitment to, in the words of the great Ritsumeikan postwar chancellor Hiroshi Suekawa, encouraging students to "believe in the future, live for the future."

Faculty and staff within the various offices and departments of Ritsumeikan University work closely together to support the individualized learning and development of its many students from a diverse array of backgrounds, empowering those students who are the agents in the process of "Creating a Future Beyond Borders."

Ritsumeikan University is committed to establishing an inclusive learning community. Its members are to learn together and to push one another to excel while they enjoy a comprehensive student experience that encompasses both academic and extracurricular activities. Bachelor's degree program graduates are expected to demonstrate the following four key skills:

- (1) Embrace the values of Peace and Democracy by respecting the diverse values held by others and by emphasizing communication and cooperation;
- (2) Innovate existing frameworks and break down restrictive borders by applying the global and local perspectives acquired from a broad general education and studies in a specialized major field, even as they seek out and attempt to solve the problems facing human society, following the values of Freedom and Innovation;
- (3) Think and act in a responsible manner based on an awareness of their own individual roles in society and issues discovered within their own lives;
- (4) Take actions stemming from lifelong learning as the greatest expression of believing in the future and living for the future.

I Human Resources Development & Educational Goals

1. Human Resources Development Aims

- The aim of the College of Global Liberal Arts (GLA) is to train people who can identify the problems in our increasingly global society in a practical way, take a lead in the solution of those problems and continue their studies to be able to achieve this. These people will possess an insight into the diversity of human society and take a global overview of human history, they will act based on a keen sense of ethics and will have ample skills of verbalization and visualization and an innovative imagination regarding future society that is based on the advances in science and technology. This will be achieved through education and research on the humanities and social sciences and through experiences and independent learning that cross various borders in Japan, Australia and the various other societies of Asia.

2. Educational Goals

[Knowledge and understanding]

- To acquire wide-ranging knowledge on the diversity of human society and the plural paths of the history of the humanity and to be able to understand these using the methodology of the humanities and social sciences.
- To be able to understand the diversity of the modern world and of the various societies of Asia in particular based on empirical knowledge.
- To acquire knowledge on the social meaning of the progress of science and new technologies in the contemporary world and to be able to understand this by returning to the various basic theories of the humanities and social sciences.

[Thinking and judgment]

- To be able to think logically and critically to form individual opinions.
- To be able to evaluate moral values in various social contexts, consider how different ethical viewpoints can be taken in cases where there is conflict in ethical interpretation and contemplate better options for action.
- To be able to identify problems and derive solutions based on pluralistic viewpoints and intellectual originality.
- To be able to make strategic judgments to encourage cooperation that overcomes conflicts of interest and opinion.

[Interest, motivation and attitude]

- To have high aspirations and a fighting spirit to be able to independently tackle social issues as a citizen with a sense of responsibility and a strong will to overcome difficulties.
- To be able to respect and cooperate with different cultures, values and standpoints.
- To be able to work on research with ethical awareness and practically integrated awareness regarding the relationship between intellect and society.
- To have the sense of leadership necessary for problem solving and to be able to engage in the issues cooperatively.

[Skill and expression]

- To learn the wide range of techniques that are necessary for the appropriate collection and analysis of information, including reading comprehension, quantitative literacy and information literacy, and to be able to use these techniques effectively in research.
- To have the language proficiency, design competency, and multimedia proficiency that are the communication techniques necessary for the expression of individual intelligence and effective academic communication.

3. Joint Learning Outcomes

Upon successful completion of the dual degree program in Global Liberal Arts and Asia-Pacific Affairs, graduates will be able to:

1. Understand the unique value of employing concepts and methods from a global liberal arts perspective to explore the new challenges posed by a rapidly changing transnational world.
2. Use a global liberal arts conceptual approach to understand the transnational forces and processes underlying the contemporary challenges in Asia-Pacific Affairs.
3. Identify and understand the main political, cultural, economic and diplomatic challenges impacting the Asia-Pacific and their inter-connectedness.
4. Critically evaluate the various existing strategies aimed at promoting stable and just political communities through maintaining peace between states and managing conflict within states.
5. Creatively develop innovative strategies to foster cooperation and address the potential social needs for sustainable societies at various levels.

4. Curriculum Policy (Curriculum Organization and Implementation Policy)

In order to achieve the human resources development aims and educational goals described above, GLA will realize its distinguishing characteristics by organizing the curriculum based on the following five principles.

1) To comprehensively learn the study of the liberal arts in a manner suitable for the globalized world

The global liberal arts curriculum offered by GLA uses the cultivation of learning rooted in the humanities and social sciences and mutual interaction between “different cultures” such as different countries, regions, genders, generations, languages, religions and values, so that it: a) inherits the essential nature of the liberal arts with regards to the development of tolerant moral excellence to enable coexistence and cooperation with people, societies and cultures that are different to oneself, whilst it also, b) reexamines the views of the world and understanding of history that were presumed by the conventional liberal arts in a wider and deeper context to open students to alternative viewpoints, and, c) uses an insight into the mutual interaction between society and various knowledge, to be able to approach the various issues for modern society with practical and creative problem solving. The points a) to c) above are realized in particular in the three subject groups of Cosmopolitan Studies, Civilization Studies and Innovation Studies, which form the core of the curriculum. The structure is set so that the students must conduct balanced study of each of these three subject groups to graduate. In addition, what is learnt there is summarized in a practical and applied manner in the Capstone Studies subject group.

2) To acquire the ability to think logically and critically, the ability to make ethical judgments and the academic skills that form the foundation for the identification and solution of problems

The study of the liberal arts connects to a wide range of postgraduate education from professional fields to academic fields and develops human resources with more specialized problem identification and solution skills. Through the Essentials of Global Liberal Arts courses in particular, in addition to cultivating logical and critical thinking skills and moral judgment skills, there is also wide ranging and phased study of research techniques and methodology with a focus on the humanities and social sciences. Finally, in the Capstone Studies, the ability to use those skills practically and comprehensively is improved.

3) To improve the ability to cooperate in multicultural societies

GLA accepts students from various different cultural backgrounds, particularly from Japan, Australia and the various regions of Asia. All courses are conducted in English and also a multicultural study community is formed throughout the regular classes and extracurricular activities to develop multicultural cooperation capabilities. Furthermore, through cooperation with the Australian National University, a

curriculum structure is realized that builds up “experiences that cross various borders in the various societies of Asia,” as stated in the human resources development aims, and more deeply and more certainly realizes the educational goal of “to be able to understand the diversity of the modern world and of the various societies of Asia in particular based on empirical knowledge.”

4) To acquire the ability to set themes independently and with originality and also to effectively communicate research results

GLA in principle sets all courses as four credit courses (90 minutes × 2 sessions/week × 15 weeks). The basic format is a course in which lectures and tutorials are combined, while some courses are provided as “seminar” with flipped learning style. The upper limit for the seminars and tutorials will be set to around 25 to 30 students (depending on the course) to pursue study in small groups with active learning. Also, three assistant professors will be assigned to support the study at the Academic Advising Center of GLA. In addition to the learning portfolios, an environment will be prepared so that the students can confirm their own development, set their own learning goals and take steps to make the learning easier. Also, a wide range of opportunities will be prepared to nurture the ability to communicate information at each level of study, with the Capstone Studies at the top (by developing PBL type classes and opportunities for project type regular classes and extracurricular activities).

5) To pursue the significance of studying in Japan as part of the world/Asia

At GLA, a minimum of two to three years of the four years of study are spent learning in Japan. In addition to providing opportunities for international students to learn Japanese, a curriculum will be developed that has subjects related to research on Japan developed within the framework of the global liberal arts and deepens the understanding of Japanese history, culture and society in a global context, where both the students from Japan and the international students acquire the learning necessary to support their ability to communicate information to the world from Japan or via Japan and their experiences learning in Japan can be used as assets for their career development. Efforts will also be made to achieve the objectives above by utilizing the location and superior facilities of the OIC campus of the University, which has the campus concept of being a “Gateway to Asia.”

5. Diploma Policy (Degree Conferment Policy)

To achieve the human resources development aims and based on the educational goals, GLA sets the abilities that the students should have mastered by the time of their graduation to be the following. When the student has acquired the credits prescribed for each subject and the total credits prescribed (124 credits), it will be viewed that the human resources development aims have been achieved based on

systematic study and a bachelor's degree (Global Liberal Arts) will be conferred.

[Knowledge and understanding]

- To acquire wide-ranging knowledge on the diversity of human society and the plural paths of the history of the humanity and to be able to understand these using the methodology of the humanities and social sciences.
- To be able to understand the diversity of the modern world and of the various societies of Asia in particular based on empirical knowledge.
- To acquire knowledge on the social meaning of the progress of science and new technologies in the contemporary world and to be able to understand this by returning to the various basic theories of the humanities and social sciences.

[Thinking and judgment]

- To be able to think logically and critically to form individual opinions.
- To be able to evaluate moral values in various social contexts, consider how different ethical viewpoints can be taken in cases where there is conflict in ethical interpretation and contemplate better options for action.
- To be able to identify problems and derive solutions based on pluralistic viewpoints and intellectual originality.
- To be able to make strategic judgments to encourage cooperation that overcomes conflicts of interest and opinion.

[Interest, motivation and attitude]

- To have high aspirations and a fighting spirit to be able to independently tackle social issues as a citizen with a sense of responsibility and a strong will to overcome difficulties.
- To be able to respect and cooperate with different cultures, values and standpoints.
- To be able to work on research with ethical awareness and practically integrated awareness regarding the relationship between intellect and society.
- To have the sense of leadership necessary for problem solving and to be able to engage in the issues cooperatively.

[Skill and expression]

- To learn the wide range of techniques that are necessary for the appropriate collection and analysis of information, including reading comprehension, quantitative literacy and information literacy, and to be able to use these techniques effectively in research.

- To have the language proficiency, design competency, and multimedia proficiency that are the communication techniques necessary for the expression of individual intelligence and effective academic communication.

6. Achievement Goals by Year

Year 1

- To acquire basic knowledge regarding the diversity of human society and the plural paths of the history of the humanities
- To learn the basic methodologies used in the humanities and social sciences.
- To acquire the ability to engage in intellectual conversations premised on the existence of differing viewpoints with an awareness of logical and critical thinking, and to engage in intellectual production in collaboration with others on assigned topics.
- To acquire the basic ability to appropriately collect and analyze information, and effectively express the results.

Year 2

- To acquire a basic understanding of the diversity of the modern world, and of the various societies of Asia in particular, based on empirical knowledge.
- To acquire a grounding in a specific discipline based on the student's interests, on a foundation of basic knowledge of and methodologies used in the humanities and social sciences.
- To be able to engage in creative, intellectual production in collaboration with others in a multicultural environment.
- To be able to utilize basic skills for appropriately collecting and analyzing information and effectively expressing the results.

Year 3

- To be able to utilize knowledge and skills in the humanities and social sciences and knowledge related to science and technology in order to analyze actual issues in the contemporary world.
- To be able to engage in creative intellectual work that is theoretical, critical, ethical and collaborative in the context of an actual multicultural society.
- To be able to utilize basic skills for appropriately collecting and analyzing information and effectively expressing the results, and to improve one's own intellectual production through interactions with others.

Year 4

- To acquire the necessary knowledge in the humanities and social sciences to earn the bachelor's degree

and develop an academic understanding of the diversity of the modern world, and of the various societies of Asia in particular, as well as of the contemporary social significance of new science and technology.

- To be able to creatively identify and solve problems in the context of pluralistic values while demonstrating adequate logical and critical thinking skills and ethical judgment as an intellectual producer holding a bachelor's degree.
- To be able to independently engage in social issues while collaborating with others with an appropriate awareness of leadership and citizenship responsibilities in an actual multicultural society.
- To be able to practically utilize skills for the appropriate collection and analysis of information as well as the communication skills necessary for effectively expressing one's own intellectual activities at a level suitable to qualify for a bachelor's degree.

II Curriculum

1. Degree Requirements

Students must meet all of the following requirements to graduate from GLA and earn a bachelor's degree in Global Liberal Arts.

- (1) Students must be enrolled for at least eight (8) semesters.
- (2) Students must complete all requirement groups by sufficient numbers of credits and courses.
- (3) Students must complete all compulsory courses with a grade of C or higher.
- (4) Students must earn at least 124 credits.

2. Credits Required for Graduation

See TABLE 1 below for the numbers of credits required each requirement group.

To earn degrees from RU and ANU under the Dual Degree program, students must fulfill the respective graduation requirements for both universities. The Dual Degree agreement enables credit transfer between RU and ANU to fulfill both universities' degree requirements. Contact the Academic Advising Center for more details.

TABLE 1: Credits required to graduate from GLA

Subject Group	Credits Required
Essentials of Global Liberal Arts	32 credits or more (includes 16 credits from compulsory courses)
Cosmopolitan Studies	12 credits or more (includes 4 credits from compulsory courses)
Civilization Studies	12 credits or more (includes 4 credits from compulsory courses)
Innovation Studies	12 credits or more (includes 4 credits from compulsory courses)
Japanese Studies Cluster	4 credits or more
Languages	0 credit or more
Capstone Studies	12 credits or more (includes 12 credits from compulsory courses)
Total	124 credits or more

3. Criteria for Issuing Certificates of Prospective Graduation

A Certificate of Prospective Graduation indicates a student’s anticipated graduation date and may be necessary for events, such as job interviews and graduate school applications.

Students who meet criteria (1) – (3) below can request the Certificate of Prospective Graduation by contacting at oic-cert@st.ritsumei.ac.jp.

[Issuance Criteria]

(1) Students must be currently enrolled in the 7th semester or beyond including the enrollment in ANU.

The “Semester” displayed on the “Course Registration and Grade Status” page on CAMPUS WEB must be the 7th semester or beyond (check the semester in the “Course Registration and Grade Status” by logging into CAMPUS WEB from manaba+R.).

(2) Students’ status must be “Study Abroad” on CAMPUS WEB.

The Certificate of Prospective Graduation cannot be issued if students’ status is “Leave of Absence.”

(3) Students must have earned the number of credits including transferred credits from ANU specified in TABLE 2 below for the respective period. If a student is enrolled in their 8th semester or beyond, the anticipated graduation date given on the certificate will vary depending on the number of earned credits (students cannot choose their anticipated graduation date).

TABLE 2: Credits required for issuing Certificates of Prospective Graduation

When requesting the certificate	Number of earned credits at end of the previous semester	Graduation date written on certificates
From the first day to the last day of the 7 th semester	83 credits or less	Certificates cannot be issued.
	84 credits or more	The graduation date of the following semester
From the first day to the last day of the 8 th semester or later	83 credits or less	Certificates cannot be issued.
	From 84 credits to 103 credits	The graduation date of the following semester
	104 credits or more	Graduation date of the current semester

Note: Due to system maintenance, certificates cannot be issued immediately (for a few days) after the first day of each semester.

[RU Graduation Dates for each semester]

Spring semester: Day of Autumn Equinox Holiday

Fall Semester: March 20

4. RU Course Credit Cap

A standard academic course load per semester at GLA is 16 credits, a set of 4 (four) of four-credit courses. The following Semester Credit Cap ensures students' quality learning, strong academic performance, and timely degree completion.

Standard Semester Credit Cap

Semester Credit Cap	18 credits
Credit Cap after Course Overload	20 credits

- "Thesis" is not included in the Semester Credit Cap above.

5. Course Overload Policy

0) Objectives of the Course Overload

The study at the GLA is strongly premised on ensuring academic progress of each individual student according to his/her own long-term learning goals in the college's sequential curriculum. In order to provide a wide variety of opportunities for students to explore their academic interests, a course overload may be granted based on the following conditions and procedures.

- 1) Cohort B students can apply for the course overload from their first semester at GLA (i.e., presumably, their 3rd semester in the dual degree program).
- 2) To request an overload, Cohort B students must satisfy all of the criteria below.
 - Students must have earned the ANU units equivalent to the RU 16 credits in the preceding semester.
 - Students must have achieved an RU GPA of 3.0 or higher (out of 5.0) in the preceding semester.
 - For the first semester at GLA, students must have earned an RU GPA of 3.0 or higher (out of 5.0) converted from the ANU GPA.
- 3) A student can apply for a course overload even if he/she has withdrawn from GLA courses in the preceding semester, as far as the student has earned 16 or more credits in the same semester.

6. Grade Appeal Policy

The GLA Grade Appeal Policy applies to all students within the College of Global Liberal Arts. Students may appeal a final course grade by submitting a form of grade appeals. All student information will be handled in a manner that protects student privacy and confidentiality in accordance with The Ritsumeikan Trust Personal Information Protection Basic Policy.

[Appeal Procedure]

More detailed instruction is announced on the GLA website.

- (1) Students who wish to make an appeal against their final grade, and instructors who respond to the students' appeal, must complete each procedure by the deadline given in advance.
- (2) The appeal process will be conducted entirely by email using the prescribed forms.
- (3) The student will make an appeal to the instructor in charge of the course. The instructor who receives the appeal will respond directly to the student.
- (4) If the student and instructor are unable to reach an agreement on the instructor's decision, the student may make a second appeal against the grade. The second appeal must be made through the GLA Office, not the instructor.
- (5) The response to the second appeal will be decided by the Associate Dean for Academic Affairs (ADAA) after the instructor and the ADAA have reviewed the grading details.
- (6) In reviewing an appealed grade, the instructor (and ADAA as necessary) may decide to raise the grade, lower the grade, or not change the grade.

7. Course Numbering System

Course numbers are assigned to all courses offered by GLA. It indicates the course's position in the curriculum and enables students to develop their study plan in a structured manner to fulfill their graduation requirements.

Basic Course Numbering System for AY2020

C	G	L	1	9	E	S	1	0	0	1	E
College Name			Curriculum Year		Subject Group		Recommended Year of Study	Classification No.			Language of Instruction
(1)			(2)		(3)		(4)	(5)			(6)

- (1) The classification of college is indicated by the three letters.

[Classification Codes for College]

CGL	College of Global Liberal Arts
-----	--------------------------------

- (2) The two-digit number indicates the academic year.
- (3) The subject group is indicated by the two letters.

[Subject Group Codes]

ES	Essentials of Global Liberal Arts
CO	Cosmopolitan Studies

CI	Civilization Studies
IN	Innovation Studies
JA	Japanese Studies Cluster
LA	Languages
CA	Capstone Studies

(4) The single-digit number indicates the recommended year of study.

[Eligible Student Codes]

1	Appropriate for the first-year students or higher
2	Appropriate for the second-year students or higher
3	Appropriate for the third-year students or higher
4	Appropriate for the fourth-year students or higher

(5) The classification number is indicated by the three-digit number and functions as a reference number.

(6) The language of instruction is indicated by either “E” or “J.”.

[Instruction Language Codes]

E	Instruction given in English
J	Instruction given in Japanese

10. Subject Groups

(1) Essentials of Global Liberal Arts

This subject group covers the intellectual heritage of humankind from a modern, global perspective. Students acquire basic knowledge of the humanities and social sciences and learn the fundamentals of basic techniques, methodologies, research ethics, and academic communication, which serves as the foundation for further studies at GLA. Most courses can be taken from the first year of study, and there are four core, compulsory courses: Introduction to Global Liberal Arts I, Introduction to Global Liberal Arts II, Statistics, and Research Design and Research Method.

Introduction to Global Liberal Arts I and II

Introduction to Global Liberal Arts I and II are compulsory courses within the Essentials of Global Liberal Arts subject group. Those introductory courses are a very important component of the undergraduate curriculum at GLA.

1) Description

Introduction to Global Liberal Arts I is held in the spring semester and covers methods for analyzing knowledge-related assertions and pursuing knowledge-related questions, which are foundational elements of Global Liberal Arts. There are two main segments: 1) Introduction to the Humanities, and 2) Fundamentals of the Social Sciences.

Introduction to Global Liberal Arts II is held in the fall semester and covers the significance of knowledge in society and the responsibilities attending its production, both of which are foundational elements of Global Liberal Arts. There are two main segments: 1) Ethics, and 2) Science and Technology Theory (STS).

2) Registration and Class Assignment

Introduction to Global Liberal Arts I and II are compulsory courses. The course registration is conducted by the administration office for all the 1st year students. Students take the classes to which they are assigned.

3) Team Teaching and Class Proceedings

Classes are held twice a week. The classes are conducted via team teaching. Each class is assigned a total three instructors, one for each of the humanities, social sciences and natural sciences, and the three instructors divide the class sessions between them.

(2) Cosmopolitan Studies

Focusing on cultural studies and area studies, this subject group provides students with a deeper understanding of the diversity of human society and helps them to develop the ability to identify and address issues in ways that transcend borders. As the core component of Cosmopolitan Studies for developing an understanding of social diversity, Cultural Studies is a compulsory course offered from the first year. In courses beginning the second year, students learn about the diversity of perspectives through which society can be understood.

(3) Civilization Studies

Focusing on historical studies and social theory, this subject group helps students to develop their understanding of both the plurality and the common ground of the global community and to acquire the conceptual ability needed to identify new issues that impact humanity. Accordingly, Civilizations in Global History is the core component of Civilization Studies and is a compulsory course offered from the first year. From the second year, courses focus on theoretical study of society and history.

(4) Innovation Studies

Focusing on management theory and the study of science and technology, this subject group develops in students the practical intelligence needed to bridge theory and practice and to create and implement new value. Based on Knowledge and Innovation, the core compulsory course offered from the first year, starting in the second year, students take courses that connect theory with our actual globalizing society, as well as Internship I and Internship II, courses that enable them to utilize what they have learned at GLA in actual experiences in the broader society.

Internship

Internships allow students to directly experience the connections between their studies at GLA and the broader society. They also provide opportunities for students to revise their study plans looking ahead to post-graduation career paths, as students may choose to revise their courses of study following an internship or the study at ANU.

Internships are generally conducted during semester breaks in summer and spring, with separate recruiting carried out each time. Detailed recruitment information is provided on manaba+R.

(5) Japanese Studies Cluster

Students learn Japanese history, society and culture in a global context and deepen their understanding of the three pillars of studies around which the curriculum is centered (the above Cosmopolitan Studies,

Civilization Studies, Innovation Studies) in the specific context of Japan's location in relation to Asia and the world. This subjects under Japanese Studies Cluster requires a good grounding in the three pillars above plus Essentials of Global Liberal Arts; therefore, courses in this subject start in the second year, except for Japanese Language and Culture I and II.

(6) Languages

To reinforce the significance of studying in Japan from an early stage, Japanese Language I to IV are taken from the beginning of the first year. In addition, Academic English is taken from the second year to enable students to acquire the advanced academic skills needed to study at ANU.

Japanese Language I to IV and their equivalent courses offered on ANU campus cannot be repeated.

(7) Capstone Studies

In Capstone Studies, students integrate and apply what they have learned across subject groups in the preceding several years, and develop the ability to utilize their studies at GLA in more practical applications, particularly in the political, economic, social and cultural context of the Asia-Pacific region.

Based on their learning across the three pillars of the curriculum of GLA in the first three years, students select one of the three fields of research, Cosmopolitan Studies, Civilization Studies, and Innovation Studies, in their 4th year. They will take research seminars to pursue one of those GLA's three pillars of study. Based on the interdisciplinary nature of Global Liberal Arts, the seminars will be taught in the colloquium format led jointly by instructors responsible for each section. Along with the intellectual stimulation and interdisciplinary guidance enabled by the colloquium format, each student also receives practical instruction focused on his/her graduation thesis from the instructor specialized in the relevant subject area.

1) Research Seminar

This course enables students to reflect on their previous studies and to explore the research theme most suited to their study interests. In this course, students will produce a wellresearched piece of work. They will proactively and consistently pursue research as the end point of their active learning in the degree program. They do so by using what they have learned in the three pillars of Global Liberal Studies; Cosmopolitan Studies, Civilization Studies, and Innovation Studies.

2) Thesis

The aim of this course is for students to complete their own learning in liberal arts by writing a graduation thesis. Students will enhance their ability to formulate and solve their own questions by applying and developing the knowledge and research methods they have acquired in previous years, and express them in

a graduation thesis.

11. Lectures and Tutorials

Students and instructors meet twice a week for each subject, for a total of 30 classes throughout a semester each course: a combination of lectures and tutorials each week. Instructors hold lectures that encourage two-way communication between students and the instructor. During tutorials, students are placed into groups for in-depth discussion and group work. This iterative cycle of knowledge input and output is realized, helping students absorb the knowledge acquired and build dynamic problem-solving abilities.

III Dual Degree Program

1. Program Overview

All students will enroll in the dual degree program to earn two bachelor's degrees from RU and ANU within four years. At RU, they will study Liberal Arts to become a proactive member of the global society in the 21st century. At ANU, they will experience the dynamism of globalization firsthand and deepen their studies of the Asia-Pacific region. Through this program's close coordination between the two universities, GLA students will attain an international and pluralistic education. When students complete their respective requirements for both universities, they will earn a bachelor's degree in Global Liberal Arts from RU and a bachelor's degree in Asia-Pacific Affairs from ANU.

The time studying at RU in the dual degree program is closely related to students' learning prior to or after their periods of study at RU. Students will start their academic careers at ANU. In their second and third years, students will take RU courses offered at OIC, including, but not limited to, GLA's compulsory and elective courses as well as Research Seminars. At that time, students are highly encouraged to select courses relevant to their academic, career, and/or personal goals by consulting with an academic advisor. Upon their return to ANU in the fourth year, they will work on the remainder of ANU courses.

2. Course Work Schedule

Unless there are any unpredictable circumstances such as a pandemic, students in the dual degree program will take RU courses at OIC for four semesters from their third semester.

During these semesters, students will take 4-5 GLA courses per semester. In general, RU's academic calendar is as follows, including exams:

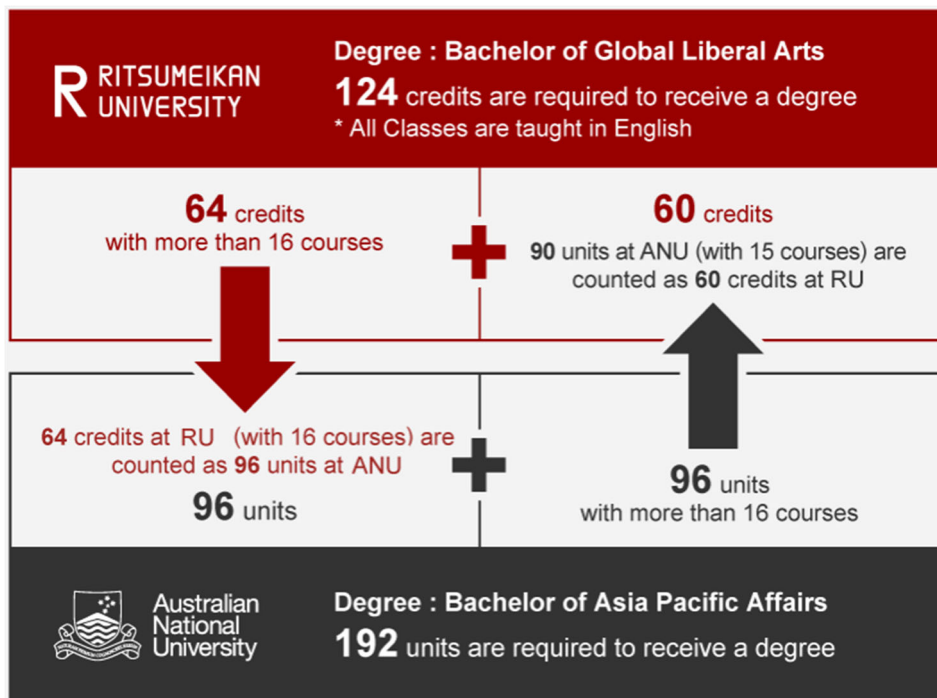

Spring Semester: Early April through Late July

Fall Semester: Late September through Late January

After completing four semesters at RU, students return to Australia and may resume their studies at ANU in the following semester to complete the remainder of their degree requirements for the ANU graduation.

3. Credit Transfer between RU and ANU

In the dual degree program, students can take 16 courses (or more) at RU and ANU respectively. These credits will be recognized at both universities, and it will enable students to complete requirements toward degrees from both universities. The units earned at the ANU is approved by RU before the first semester at RU, according to the "Transfer Equivalency List from ANU to RU" (Table 6).

Transfer of RU credits toward the Bachelor of Asia Pacific Affairs will be administered by ANU separately. The ANU courses listed in Table 6 reflects information as of February 2022, but may become subject to change due to unforeseen circumstances. Check "Transfer Equivalency List from ANU to RU" on the GLA website for the most timely information. All ANU courses must be completed with grades of HD, D, CR, P, and/or PS to transfer to RU.

TABLE 6: Transfer Equivalency List from ANU to RU

The following equivalency table indicates how ANU courses will transfer to RU and fulfill GLA's program requirements.

The following equivalency table reflects information available at GLA in February 2022. For the most recent information, refer to the GLA website (http://en.ritsumeai.ac.jp/gla/academics/curriculum/transfer_equivalency_list/).

(*) Students who would like to register for these RU courses after earning credits for the equivalent ANU courses must consult with an academic advisor's approval.

(**) Students cannot receive credits for these ANU courses if they have already earned credits for the corresponding RU courses.

IV Student Resources

Students are responsible for checking the university email, manaba+R, and the Academic Advising Database periodically. The university email will be the only means of communication to correspond with the university staff & faculty. Students will be responsible for inconveniences that may have caused by not checking the resources listed above.

1. The Academic Advising Center (AAC)

“Your Success Matters.”

GLA students are expected to develop their study plans for the entire four years of their academic programs to achieve their academic goals and pursue their post-graduate paths. However, students’ interests may change during their careers at GLA due to any number of factors: a new interest piqued in a particular course, exposure to novel ideas during study at ANU, or stimulating experiences outside of the classroom. Accordingly, students may wish to reconsider their study plans to better fit their changing ambitions.

To accommodate students’ goals, the GLA curriculum has built-in flexibility that enables students to change their academic plans in accordance with their developing interests. To support them in conceiving and achieving their goals, students should consult with the GLA Academic Advising Center (AAC) in timely manner.

“Because We Care.”

GLA is committed to providing academic support to every student via the AAC. The mission of the AAC is to help students navigate the GLA curriculum, to make appropriate referrals to other campus resources based upon students’ needs, and to make sure students remain on track for graduation, all through individual guidance. In addition to its primary role of working with students, the AAC also works closely with the GLA leadership team to enrich the educational environment of GLA and to create new opportunities for students.

“We Advise, You Decide.”

Students are valued as the most important stakeholders in GLA’s educational community. To support students in this capacity, the AAC is responsible for providing students with accurate information about curricular matters, monitoring students’ academic progress throughout their study at GLA, and helping them make informed decisions about their academic goals and aspirations. The AAC does not offer tutoring support or provide mental health services, but can direct students to other resources on campus and

supports them in their utilization of these services. Successful advising requires mutual respect, and AAC advisors, as well as all staff and faculty at GLA, are committed to taking each student's needs seriously. In turn, GLA students are expected to take responsibility for their conduct and learning. Students are responsible for making advising appointments on their own initiative, being active and engaged throughout the advising process, and being prepared for each advising session. Information about the AAC and other related topics is provided on the GLA website. <http://en.ritsumeikai.ac.jp/gla/advising/>

2. Administrative Office, College of Global Liberal Arts (the GLA office)

The GLA Office plays vital roles in all aspects of the college's administration by collaborating with the Dean's leadership team as well as other staff and faculty inside and outside the college. Being a part of the Division of Academic Affairs, the GLA Office is responsible for, but not limited to, the following functions:

- Student recruitment and admissions
- New student orientation
- Registration & course withdrawal
- Transfer between RU and ANU
- Curriculum, syllabus & course schedule management
- Faculty support
- Student support (including referral to other support units on campus)

When GLA students need assistance but do not know where to contact, they should contact the GLA office first for the necessary guidance.

Location: AC office, OIC campus.

072-665-2492

3. Disability Resource Center (DRC)

Ritsumeikan University is committed to creating an inclusive environment that supports students with disabilities through the following three policies

- Support students with disabilities to ensure an equal opportunity to receive a quality education
- Contribute to the learning and development of all students through the provision of support for students with disabilities
- Aim to enhance the university's educational competency by bringing awareness to faculty and staff

regarding support for students with disabilities.

Location: AS office, OIC campus.

<http://www.ritsumei.ac.jp/drc/en/>

072-665-2130

4. Harassment Prevention Committee

Ritsumeikan University and Ritsumeikan Affiliated Schools' Harassment Prevention Regulations and Harassment Prevention Guidelines clarify our emphasis on respect for human rights and zero tolerance for harassment in any form perpetrated by Ritsumeikan students or staff.

Ritsumeikan University and Ritsumeikan Affiliated Schools advisers operate under the jurisdiction of the Harassment Prevention Committee to help complainants of harassment. If students are in need of help, they are welcome to contact the Committee for supports and guidance.

<http://www.ritsumei.ac.jp/mng/gl/jinji/harass-eng/>

<http://www.ritsumei.ac.jp/mng/gl/jinji/harass-eng/gakunai/advisers.html> (Contact Information)

5. The Office of International Affairs

The Office of International Affairs assists students for the Student Visa, International Dormitory, and other day-to-day questions about life in Japan.

Location: 1st floor, AN Office, OIC Campus.

<https://global.support.ritsumei.ac.jp/hc/en-us>

072-665-2070

6. IT Support (Rainbow IT Support)

Technical supports regarding (but not limited to) the university email, manaba+R, Wi-Fi, printing services etc... are available to all students.

Location: 2nd floor, Building C

<https://it.support.ritsumei.ac.jp/hc/ja>

072-665-2620

7. Medical Service Center

The Ritsumeikan Medical Service Center supports students, faculty and staff members to ensure that they can enjoy a high quality of health at university. The Medical Service Center provides the following services:

- Annual medical examinations
- Post-medical examination: re-examinations, detailed examinations, and health guidance by a doctor, nurse or public health nurse
- Health consultation (mental and physical health consultation and other health-related consultation)
- Medical care (internal medicine and psychiatry)
- Study abroad support (antibody tests, vaccination, and issue of certificates)
- Support for nursing-care experience, teaching practice, and clinical training (examinations and issuance of medical certificates)
- Support for extracurricular activities (physical checkups for athletes)
- Support for lab and practical experience (safety control)
- Health education
- Prevention of infectious diseases
- First Aid treatment
- Issue of health certificates

Location: 1st floor, AS office, OIC campus.

<http://en.ritsumei.ac.jp/health/>

http://www.ritsumei.ac.jp/mng/gl/hoken/doc/HealthHandbook_E.pdf

072-665-2110

8. Student Success Program (SSP) – the Office of Student Affairs

Administered by the Office of Student Affairs, the SSP will be offering seminars on essential skills such as time management, note-taking skills, and conducts both individual and group support in the form of seminars or workshops. The SSP also collaborates with the Student Support Room (counseling) as well as Disability Resource Center.

Location: AS office, OIC campus.

<http://www.ritsumei.ac.jp/ssp/english/>

072-665-2130

9. Student Support Room (SSR) – Counseling Support

The SSR offers a range of psychological services including individual counseling, group work, and various workshops to help students accomplish their goals in the student life, restore balance, and build strength and increase their personal well-being. Certified and experienced professional counselors provide counseling services at the SSR in a strictly confidential setting.

Location: Schedule an appointment at the Office of Student Affairs, AS office, OIC campus.

<http://www.ritsumei.ac.jp/ssr/en/>

072-665-2130

10. Writing Support for GLA Students

Knowing how to write well in academia is vital for students to be successful in their academic career. To assist students in strengthening their academic writing skills, GLA offers the Writing Coach and Writing Tutorial throughout the semester. Access the GLA website for more details and making reservations.

http://en.ritsumei.ac.jp/gla/academics/learning_support/academic_writing_skills/
