Liberal Arts Courses Group B : "Liberal Arts Seminar"

<Course Outline>

This course is a small group class in which students research, discuss, and make presentations in the context of their interests and majors, triggered by the area of expertise of each instructor in charge. These activities are conducted in target languages other than Japanese. Students not only deepen their knowledge, but also learn a lot from the interaction among students with diverse backgrounds.

<Attainment Objectives>

- To be able to go beyond one's own field or specialty, to understand things, from a multifaceted perspective, in a language other than Japanese, and to be able to use that language to communicate with confidence.
- To experience independent learning in a language other than Japanese, and to learn how to learn independently.

<Important Notes>

Each course specifies the expected range of the language proficiency of course participants. Please confirm the level of the language before registering. Students whose language proficiency is above the specified range are welcome to register, although please be aware that the instructor may need to adjust the level of instruction to students who are within the target level.

The "Teaching Language" will be the primary language used by the instructor in class. However, Japanese will also be used to help facilitate learning when needed.

Once your placement is confirmed, you will not be able to cancel these courses.
